

# LYRICA BAROQUE

## The Power of Language 2019/20

### MISSION

The Power of Language fosters social-emotional exploration, discovery, and growth through classical music.

### CORE BELIEFS

#### We believe...

- in the power of arts integrated learning and emotional exploration to provide a safe foundation from which to engage with the world.
- that this environment is essential for developing resilience, empathy, and a secure sense of self.
- in developing love and appreciation for the arts and classical music through live performance and collaborative education.
- in creating a diverse and inclusive space for all.

### ABOUT

Members of Lyrica Baroque partner with music therapists, psychologists, and local New Orleans educators to develop resilient behaviors and social-emotional intelligence in children. These workshops use live chamber music and arts integration techniques to foster joyful and meaningful education, enhancing the quality of learning and increasing retention. In the classroom, we build emotion-based vocabulary, learning to identify emotions and understand their meaning. Paired with a variety of art forms, including music-making, acting, movement, writing, and visual art, we practice feeling and expressing emotions. With increased familiarity, students develop empathy, learn coping strategies, strengthen a sense of self, and become more effective communicators.

### IN THE CLASSROOM

Each Power of Language project consists of two workshops. Each workshop is no less than nine hours of classroom time. Number of days, schedule (during or after school), and duration of each daily class is dependent on the needs of each program site.

#### Lyrica Baroque Provides:

Musicians and teaching artists  
Teaching supplies

#### Program Site Provides:

1 teacher/community member that the students are familiar with  
Space for the program

\*At least one pre-project meeting is required between the Lyrica Baroque team and community members at each program site.
