

Community Division Repertoire Requirements

Community Division participants are now required to submit a video recording for NCF's 2021 festival. All videos should be uploaded to YouTube, and submitted via a private YouTube link.

Competition Repertoire Requirements:

Each ensemble must prepare at least two contrasting works. These may be contrasting movements from a single work, or contrasting movements from unrelated works. Single movement works are also acceptable in combination with another contrasting work or movement.

Competition repertoire should total between **10 to 15 minutes** of music.

Video & Score Submission Instructions:

Upon submitting your group's registration, please have one member of your group email the following two items to nolachamberfest@lyricabaroque.com:

1. A link to a private YouTube video of your performance. If possible, please provide a separate link for each piece.
2. A digital copy or scanned score of your competition repertoire in PDF form. If no full score is available, please send copies of each part.

Please email nolachamberfest@lyricabaroque.com with any questions regarding repertoire requirements, or video/score submissions.
